

Transform your backyard with a solution that is quicker to install, contemporary and ticks all the boxes for every backyard.

Paramount Plunge pools are perfect for small sites.

With today's limited section sizes, our plunge pools are designed to optimise the space you have in order to provide you with a place to refresh and rejuvenate under the summer sun. Our fibreglass plunge pools are freestanding, meaning no backfill is required. All you need is a concrete pad and this pool is ready to go. The pool can be installed above ground, or in a pit which will sink the pool into the ground and allow it to be decked or tiled around. With the addition of a swim jet, these pools are perfect for a backyard swimming experience.

Our exciting new range of fibreglass plunge pools eliminates the need for difficult excavations, allowing families to enjoy a pool that is functional and stylish for many years to come.

- Hawea & Rotoiti standard 1.2m depth
- Ohau & Taupo standard 1.3m depth
- 30 year pro warranty on pool structure
- Finance option available through GEM Visa

Please contact us for a no obligation quotation and advice on installation, landscaping, decking and paving.
